TO PROVIDE AND PROTECT THE WELL BEING OF ANIMALS SO THAT THEY CAN BE THEIR BEST.

100% New Zealand Made

DOGS ARE NOT OUR WHOLE LIFE...

But they make our lives whole with friendship & absolute devotion

You are his life and his love and you want to provide him the best natural food nature can offer.

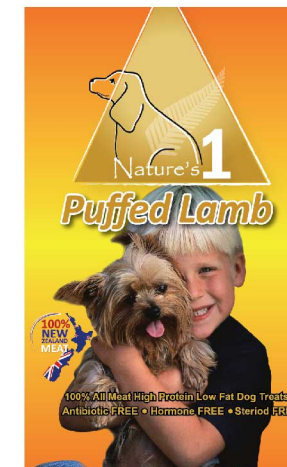

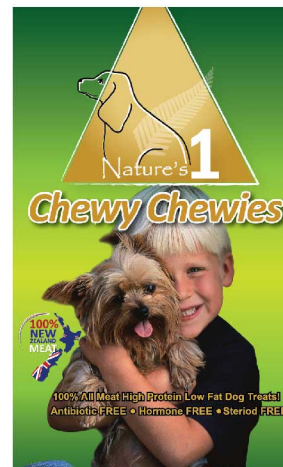

There is no better way to return your dog's love than with, **Nature's 1 Treats** simply the best of New Zealand's!

Hypoallergenic. No Wheat or Corn Fillers • And NEVER any Artificial Chemicals or Preservatives

NATURE'S 1 TREATS

We believe at Nature's 1 that nothing is too good or too natural. Therefore, we have selected only prime ranch raised animals from the green pastures of New Zealand to make our delicious 100% natural treats!

- A gentle air drying process reduces the fat content
- Enhances the flavor in our Nature's 1 treats naturally
- Locking in the wholesome goodness of New Zealand in every chunk!
- Real meat, real bone & real animal parts
- Mirror the natural diet that dogs crave yet providing them with a healthy, concentrated tasty source of high-quality protein & essential nutrients.
- Great to chew.
- Regular chewing of these treats will help remove plaque to keep your dog's teeth & gums clean & strong!

NATURE'S 1 HAY

Nature's 1 Alfalfa Hay

500G 48-00548
1KG 48-00476

- Alfalfa Hay is absolutely vital to the health of small herbivores.
- It provides not only fiber, but environmental enrichment that mimics your pet's natural habitat.
- As the caregiver, it is your responsibility to offer your pet hay every day.

Nature's 1 Timothy Hay

500G 48-00547
1KG 48-00475

- The high fiber from Timothy Hay, in conjunction with good feeding habits, may help prevent obesity.
- Lower in calcium, it may reduce the likelihood of urinary tract problems.

EAGLE VALLEY

Cat Litter & Pet Bedding Pellet

EAGLE VALLEY CAT LITTER & PET BEDDING PELLET KEEPS YOUR CAT LITTER & CAGES BRIGHTER & HEALTHIER!

EAGLE VALLEY IS SUPER ABSORBENT!

The product is manufactured from 100% all-natural Northwest, Canada White Pine wood & has approximately 4% starting moisture content. Compared to regular wood bedding & shavings, it will absorb more moisture & greatly suppress ammonia. It requires no additives, is bio-degradable, & reduces the problem of waste litter & bedding material.

CAT

Eagle Valley Litter/Bedding is an excellent cat litter that is safe for kittens & cats as well as an excellent litter/bedding for small pets including small animals, birds & reptiles.

In Cat litter boxes Eagle Valley absorbs more odor causing liquids & lasts longer. Scooping the solids daily, the litter can last up to 14 days with no odor.

Introducing your Cat to Eagle Valley

Most cats love Eagle Valley. However, cats are suspicious by nature & in some cases may not accept changes in their litter immediately. In these cases we recommend adding ¼" of your previous litter on top of Eagle Valley for a short period until your cat adapts to the change.

SMALL ANIMAL

In small animals cages or pens, Eagle Valley draws odor causing liquids from the bottom to ensure a stable, dry environment at all times.

BIRD

In bird cages, Eagle Valley provides a superb natural surface for all manner of reptiles. The absorbent characteristics make it superior substrate for snakes, lizards & spiders.

SUPERIOR LITTER & BEDDING FOR ALL ANIMALS

ABSORBENCY:

Absorbency is the most important factor in odor control. 453 gram of Eagle Valley will absorb approximately 1814 gram of odor causing liquids. The natural wood oils & resins in Eagle Valley are anti-microbial & inhibit the growth of odor-causing bacteria, keeping cat litter trays, bird cages, animal & reptile pens & enclosures fresh & clean-smelling for a longer period. If a more soft bedding or litter is required, spray a small amount of water on to the pellets before use.

EASY DISPOSAL

Eagle Valley is a 100% biodegradable all natural product. It decomposes quickly & may be composted into flower gardens or flushed in small amounts.

ECONOMICAL

Eagle Valley has up to 25% more volume & up to 6 times greater absorbency than some other litters.

DIRECTION:

CAT LITTER

Pour Eagle Valley into a clean, empty litter box to a depth of one inch. Scoop out solids daily. Replace as required. As Eagle Valley absorbs odor causing liquids it will increase in depth.

BIRDS

Fill cage tray with generous layer of Eagle Valley. Be sure tray slides in & out with ease. Allow enough space for Eagle Valley to increase in depth as it absorb odor causing liquids. Replace as it required. The high absorbency rate will keep cage fresh & odor free.

SMALL ANIMALS & REPTILES

Add a liberal amount of Eagle Valley to cage or pen, one to two inches deep. Replace as required. Never allow a pet to live in wet litter.

INGREDIENTS: 100% NATURAL WOOD FIBRE. USED BY SINGAPORE SPCA
